Hi everyone. A number of the RODs were wrong, so I went ahead and changed those. You might want to review this version. Thanks!

Hi all,

As Walter indicates below, the RA has requested we compile a list of significant actions or events anticipated through the end of the calendar year. PAO has taken the first stab at creating this list (attached). Walter has asked us to evaluate items that should be added or deleted as well as to correct any information that is inaccurate.

Our response to Walter is due by noon tomorrow. **Any feedback you may have by COB today would be appreciated.** If this is not possible based on your schedule for the day, just let me know so I can work with you on getting edits over to Pat early tomorrow morning.

Thanks in advance for the quick turnaround!

Nick

Importance: High

Dear Colleagues,

As you know, Pete is at a meeting with the Administrator, the AAs and the RAs. Yesterday he let us know that they have all been asked to compile a list of significant actions or announcements or events anticipated through the end of the calendar year.

PAO has compiled the attached draft list, based initially on what is in the weekly Major Milestones report plus a few other high profile items of which we are aware. One of the criteria applied was whether an action would likely result in a press release. Note, however, that we have kept the list *MORE* inclusive at this stage of the review process; the list will very likely be trimmed down before it goes to HQ.

Please review the list by noon on Thursday July 9. Please let us know what items you suggest we might add and which ones you suggest we delete; and please correct any information that is inaccurate (e.g., expected dates).

Thanks,

Walter
